## **1. SIGNIFICANT ACCOUNTING POLICIES**

### **A. BASIS OF PREPARATION OF FINANCIAL STATEMENTS**

These financial statements have been prepared to comply with the Indian Accounting Standards ('Ind AS') including the rules notified under the relevant provisions of the Companies Act, 2013. The financial statements are prepared on accrual basis under the historical cost convention.

### **B. USE OF ESTIMATES**

The preparation of financial statements in conformity with Indian Accounting Standards ('Ind AS') requires judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Although these estimates are based upon the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amount of assets and liabilities in future periods.

### **C. FIXED ASSETS**

#### **Tangible Assets**

Tangible Assets are stated at cost less accumulated depreciation and impairment loss, if any. The cost of Tangible Assets comprises its purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use. Subsequent expenditures related to an item of Tangible Asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

### **D. DEPRECIATION, AMORTISATION AND DEPLETION**

#### **Tangible Assets**

Depreciation on Fixed Assets is provided to the extent of depreciable amount on the Straight Line Method (SLM). Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.

Depreciation on Fixed Assets added/disposed off during the period is provided on prorata basis with reference to the date of addition/disposal.

In case of impairment, if any, depreciation is provided on the revised carrying amount of the assets over their remaining useful life.

### **E. IMPAIRMENT**

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Profit and Loss Statement in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

## **F. INVESTMENTS**

Investments that are readily realizable and intended to be held for not more than one year from the date on which such investment is made are classified as Current Investments. Current investments are carried at lower of cost and quoted/fair value, computed category-wise. Non Current investments are stated at cost. Provision for diminution in the value of Non Current investments is made only if such a decline is other than temporary.

## **G. INVENTORIES**

Items of inventories are measured at lower of cost and net realizable value.

## **H. Cash and Cash Equivalents**

Cash and cash equivalents in the cash flow statement comprise of cash at bank and Cash/Cheque on hand and short-term investments with an original maturity of three months or less.

## **I. Earnings per Share**

Basic Earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

## **J. REVENUE RECOGNITION**

- a.) Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.
- b.) Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rates applicable.
- c.) Dividend income is recognized when the shareholder's right to receive dividend is established by the balance sheet date.

## **K. ACCOUNTING FOR TAXES ON INCOME**

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates. Deferred income tax reflect the current period timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years/period. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that sufficient future income will be available except that deferred tax assets, in case there are unabsorbed depreciation or losses, are recognized if there is virtual certainty that sufficient future taxable income will be available to realize the same. Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.

## **L. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS**

Provision is recognized in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognized nor disclosed in the financial statements.

## **M. Employee Benefit Expense**

### **Short Term Employee Benefits**

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognized as an expense during the period when the employees render the services.

### **Post Employment Benefits**

#### **Defined Contribution Plans**

The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to a reduction in future payment or cash refund.

## **N. FINANCE COST**

Borrowing cost that are directly attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.
