

LCC[®] Infotech Limited

A man in a black t-shirt and shorts is running across a polished floor. The ceiling above him is a complex, white, geometric lattice structure that allows light to filter through, creating a pattern of light and shadow. His shadow is cast onto the floor below, mirroring his running motion. The overall scene is bright and airy, with a focus on movement and achievement.

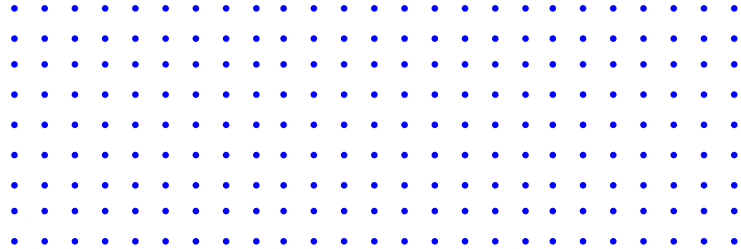

Set your goals high and
don't stop till you get
there!

CEO SPEAKS

LCC Infotech Ltd. erstwhile Lakhotia Computer Center was founded back in 1984 by our Late Chairman Suresh Chandra Lakhotia. Back then the concept of Information Technology was in its nascent stage and the requirement of computer training was negligible. However with a strong foresight, unshakable commitment and promising values, LCC was able to emerge as the only company from East India to create a pan India network of centers that facilitated knowledge based training to millions of students across the country.

At the LCC family we continue to live by the same values and ethos that spiraled us into one of the fastest growing premiere institutes in the country.

A lot has changed ever since and we as a company have learnt, grown and evolved with time, while maintaining our commitment towards quality education and training. With the evolvement of skill training from being an add-on tool to becoming a key-determining factor for employment and growth, our courses and training methodology has also undergone major changes keeping this in mind.

We at LCC strive to pass on the same commitment of excellence to our students, as well as business partners. This value system and change in perception becomes a life long asset for them. Every student who joins LCC becomes a part of our every growing family of over 27 lakh students and our success comes from seeing them succeed and achieving their dreams.

I personally would like to welcome you to our LCC Family and my team and I commit to make tomorrow a better tomorrow for you !

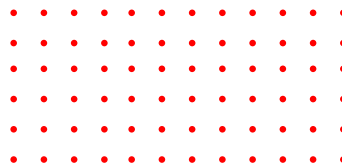

–**Sidharth Lakhotia**
CEO

Chase excellence before
your dreams and your
dreams will follow.

LCC[®] Infotech Limited

Enriching Lives

ABOUT US:

LCC Infotech Ltd. is 32 Year Skill Development and Training, ISO 9001:2008 certified Public Limited Company and is headquartered at Kolkata. LCC is a veteran in Multi Sector Domain Training and has gathered rich experience in the Information Technology Sector & Vocational training with expertise in Software Application and Programming, Multimedia & Desktop Publishing,

Financial Accounting and Taxation & Investment Strategy, Hardware & Networking and Security, Mobile Technology, Beauty & Wellness, Electronics, English Learning & Soft Skills, University Degree Courses and Government Projects. LCC is equipped with a dedicated R&D Technical Team to upgrade, develop new courses, create training

content and a Placement Cell to assist students for job. We have a network of over 550 centers PAN India and have launched over 27,00,000 successful careers since our inception.

LCC launched one of India's first I.T. Scholarship scheme 'Udaan' in 1989 and have provided free training to over 1,00,000 students ever since. Our Skill Training Operations range from Multi Sector Domain Training through Learning Centers, Software Development, Corporate H.R. Skill Development / Technical Up-gradation, LCC@School for Undertaking Turnkey Projects for Implementing ICT Courses at Schools and College Levels, University Degree Programs through

Distance Learning, Skill Development Initiatives for State and Central Government Departments.

The Government has taken an aggressive approach for Skill Training in the country and LCC has become an integral part of this initiative. We are actively working with several Central Government Ministries and bodies for executing skill development programs. Further, we are also working with several State Government departments for taking up turn key Training to placement projects.

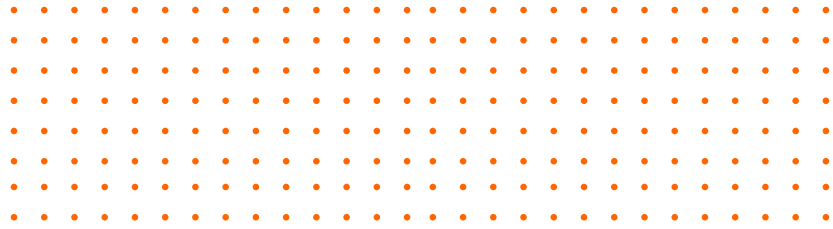

SUCCESS

Don't worry about
failures, worry about
the chances you miss
when you don't even try

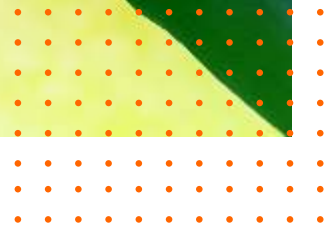

VISION

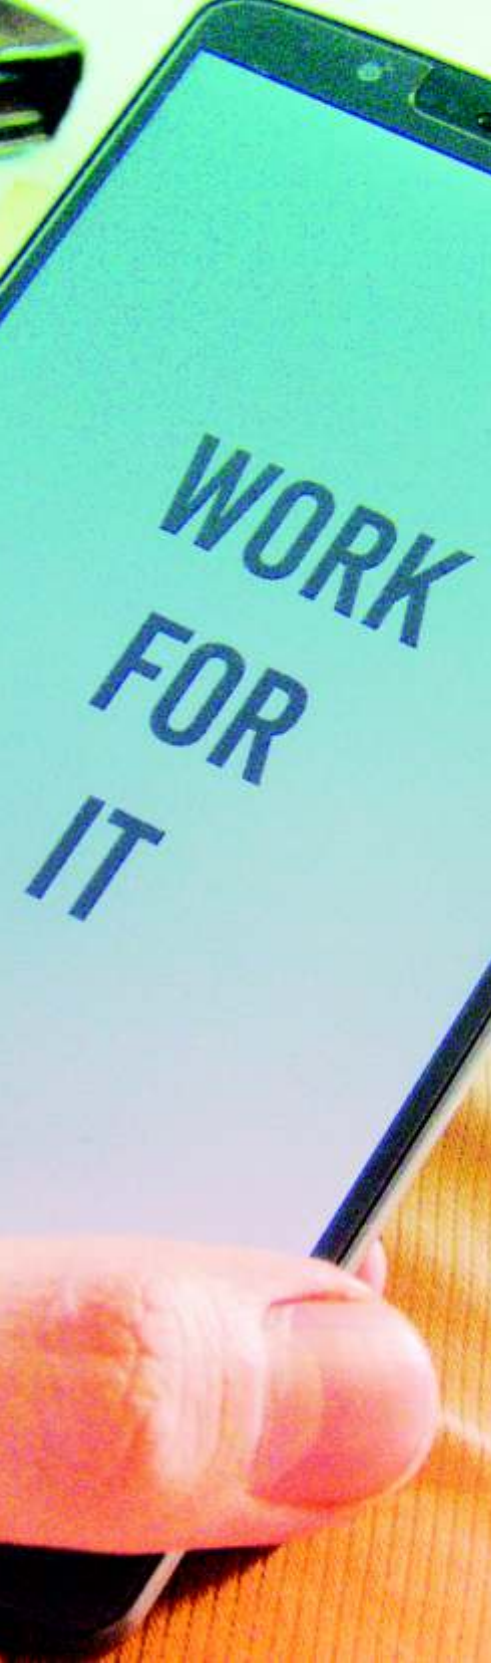

Our vision is to create a world-class skilled workforce of young Indians that become professionals and leaders in their respective domains.

Teach, Guide and Enable.

MISSION

To create a sustainable livelihoods model for our students and a robust business platform for our partners that proves to be an asset for life and truly **Enrich** their Lives.

RIGHT DECISION

TIME PLAYS A ROLE IN
ALMOST EVERY DECISION.
AND SOME DECISIONS DEFINE
YOUR ATTITUDE ABOUT TIME.

PLACEMENTS

LCC has a robust placement team spread across the country to facilitate jobs across various geographies. Our placement executives are divided into 3 focus categories based on Socio Economic Classification. We understand the reservations of many of our students and parents that would rather have their wards working in close proximity to their place of residence. We at LCC believe in creating relationships and it is this approach of ours that has allowed us to establish placement related relationships with hundreds of companies ranging from metros to small towns. We believe that every student with the right kind of skill sets and grooming can get a job and keeping this in mind we follow a very comprehensive placement strategy that focuses on both pre and post placement. We at LCC believe that every student that joins us becomes part of our ever –

Placement Strategy

Development of Candidates' Profile and Inputs for Employment Readiness

Process initiated after completion of 65% – 70% of the course, and executed as per Placement Strategy

Minimum Placement Achieving Factor – 50% of successfully trained student (Process to be completed within 1 Month of final Examination)

Placement Registration Process

Candidates register for placement with complete information in prescribed formats to be eligible for availing Placement Service

Candidates seeking to defer placement, need to fill up a separate format with reasons for deferment

Candidate Data Bank Generation

Candidate details collected from each location like: Name, Trade, Educational/ Professional Details, Contact Details, Preferred Job Location, Skill Rating, Job Fitment

Consolidation of Data/Records at Head Office

Coordination with locations/ local Centres.

Segregation of data based on criteria: Mobile Candidates, Location Specific, Candidates opting for Self Employment

Industry Preparedness Session

Bio-data/ Resume/ CV preparation guidelines

Grooming Sessions (Dressing, Communication, Body Language)

Interview Handling Tips and Suggestions

Awareness on rounds of Technical Interviews, HR Interviews, Written Tests, Psychometric Tests

Mock Interview

Conducted at respective Locations

Status documented against each profile

Inputs/ Feedback with correctives given to Candidates

Job Openings Creation

Existing Client Base

New Client Base generated based on Candidate profile

Campus Interviews

Placement Consultants/ Agencies

Job Fair

Types of Placement Offerings

Direct Hire Services

Contract to Hire Services

Contractual Services (Minimum period of continuous 3 Months)

Profile Mapping

Software: Programmer/Coder, System Operator, MIS, EDP

Hardware: Technical support, Hardware Engineer

Computerized Financial Accounting: Data Entry Operator, Accountant

Multimedia: DTP Operator, Image and Multimedia Editor/Developer
